

The Hendry County EDC Board of Directors recognizes that one of the lessons of current economic conditions in Florida is that an economy based upon population growth and tourism can be greatly impacted by economic cycles. A "jobs based economy" built upon a diverse commercial/industrial base provides a stronger foundation for sustaining and improving the vitality of the community. The EDC's goal is to strengthen existing businesses while attracting diverse additions to our local economy. By becoming a member of the EDC, you will be part of setting the course for Hendry County to prosper for years to come.
