

CITY OF CLEWISTON
PUBLIC NOTICE

The City of Clewiston has contracted with Clarke Environmental for the 2014 Mosquito Control services. Beginning in January, a fixed wing aircraft will be flying at low levels over populated areas of the City and the Harlem community spraying for the control of adult mosquito populations. These flights will be scheduled on an "as needed" basis throughout the year. Ground trucks will also be in service using equipment designed to spray a cloud of pesticide into the air allowing it to drift through the community killing adult mosquitoes. These operations will also be scheduled on an "as needed" basis throughout the year. All chemicals used for controlling mosquitoes are approved by the FDEP and labeled for this use. All applicators are trained and licensed to apply these chemicals in populated areas. If you have questions or concerns, or need to register a complaint about mosquitoes, telephone the Public Works Office at 863-983-1471 between the hours of 7:00 am and 4:00 pm, Monday through Friday.
